

TSEBO AGILE'S BACK-TO-WORK SOLUTION TO SURVIVING AND THRIVING BEYOND THE PANDEMIC

By taking care of the practicalities around creating a safe and compliant work environment for employees to return to and keeping operations flowing, Tsebo Agile allows you to get back to optimising your core business.

While 2020 was a year of global economic downfall and health challenges as a result of the coronavirus, most companies have now realised the importance of moving from a 'reactive and defensive' stance to a 'proactive and strategic' approach to rebuilding their businesses in 2021.

However, returning to offices and other more normalised work environments comes with a number of new considerations such as the well-being of employees and compliance to new regulations while still keeping business running at an optimal level.

At Tsebo Agile we believe that there are a number of ways to improve productivity, save costs and ensure a safe environment for your employees without having to overcomplicate or overthink risk mitigation and other solutions. We help clients #ReturnToWork and adapt to the 'new normal' through a range of solutions that allow access to Tsebo's vast expertise and experience at a fraction of the price. What's more, our solutions are agile and can be scaled according to a businesses' needs and budget.

We offer:

1. A one-stop-shop holistic approach that applies economies of scale. Tsebo Agile provides a cost-effective solution to facilities maintenance and business operation management, catering and cleaning solutions, maintenance and repairs, ad hoc solutions and specialised services. We create customised monthly retainers that include fixed and variable services to suit our clients' needs and budget.
2. A customisable support structure to maintain business continuity by solving pain points and providing solutions to create safe and compliant work environments that keep operations flowing and allows our clients to focus on their core business.

TRANSFORMATION IS PART OF OUR DNA

"From 1983 when we adopted our first affirmative action programme to our current Level 1 B-BBEE status, Tsebo Solutions Group has always been a development partner with a transformation ethos. Local development is ingrained in our DNA and we are committed to transformation in Africa"

We equip Africa's unemployed youth with the means to become economically self-reliant, and our entrepreneurial partnership opportunities create vibrant SMME marketplaces – particularly in rural communities where the need for growth is greatest.

Tsebo Solutions Group is a Level 1 B-BBEE contributor, providing procurement recognition for customers of 135% of spend with the Group. We have increased our black ownership from to 54.42%, and our black women ownership from to 45.63%.

We are one of the few businesses in our sector who has a black owned status and black women owned status with these percentages, thereby providing numerous procurement recognition benefits to our clients and potentially three times the score (BO/BWO, Preferential procurement spend with QSE & EMEs) because of our B-BBEE Level 1 status.

As a qualified accredited training institution that provides training and SMME supplier development we are a natural partner to integrate small businesses from communities into our operations and provide quality assurance function as well as our basic services.

We strive to create sustainable growth and development in Africa through our initiatives, we realise that investing in the people is one of the most important building blocks in achieving sustainable development.

Tsebo has been able to implement initiatives that have had a positive social impact and believe that we are on the right course in creating meaningful futures for generations to come.
