

CLEAR TO MOVE. READY TO SHIP.

PROTECTING CARGO, SAFEGUARDING COMPLIANCE AND KEEPING SUPPLY CHAINS MOVING.

Whether it's a vessel in port, grain destined for export, timber requiring treatment, warehouse stock, containers in transit or food products awaiting shipment, Fumigation & Marine Services delivers specialist fumigation and compliance services that help minimise risk, protect cargo and maintain operational continuity.

THE CHALLENGE

Shipping lines, logistics operators, exporters and warehouse operators face increasing pressure to meet stringent compliance requirements while maintaining operational efficiency.

Cargo contamination, pest infestations, failed inspections and non-compliance can result in:

- Delayed shipments
- Rejected exports
- Operational disruption
- Lost revenue
- Regulatory penalties
- Reputational damage

When cargo cannot move, businesses cannot perform.

OUR SOLUTIONS

WHY FUMIGATION AND MARINE SERVICES?

As part of the Tsebo Solutions Group, Fumigation & Marine Services combines specialist fumigation expertise with the strength, governance and national footprint of one of Africa's leading workplace management solutions providers.

Our difference lies in:

- Compliance-led service delivery
- Strong governance and safety standards
- National scalability
- Digital reporting capability
- Experienced operational teams
- Enterprise-grade service level agreements
- Rapid response capability
- Proven customer partnerships

We do not simply fumigate. We help keep cargo moving, protect commercial interests and support operational continuity.
